SUB: TENDER DOCUMENT FOR ESTABLISHMENT OF VIRTUAL REALITY ROOM - REG.

TECHNICAL BID

You are requested to submit your offer as per our specification, terms and conditions online through e-procurement under two bid system (technical and financial bid separately to be quoted as mentioned below:

S.No	Technical Specification for Virtual Reality Room unit	Specification offered
1.	<p>Description of product: Establishing Virtual Reality Room unit with virtual Reality Software application, Hardware and turn key activities</p> <p><u>Software</u> Include software for virtual activities for training of both upper and lower extremities. Permits use in clinical, community and home-based settings Software Application used for motor and cognitive therapy of patients with neurological and physical impairments. CE/ISO Certified as Medical/ Rehabilitation Device.- Licence Model: Perpetual On-Premises licence with online activation. Permits patient data to be stored locally in clinic. Includes periodic updates via downloads. Permits unlimited number of patients for each virtual Reality station</p> <p><u>Hardware and System Requirements:</u> Compatible with the following motion capture technologies: Microsoft Kinect Sensor (or equivalent), Orbbec Astra Camera (or equivalent) etc</p> <p><u>PC or Laptop minimum requirements:</u></p> <ul style="list-style-type: none"> • 1 standard internet connection (Cloud version) • 1 Kinect Xbox (or equivalent) with the corresponding USB adapter • 1 screen or monitor (with connection to the PC or laptop) • 1 PC with the following characteristics: (a) Processor: Intel core i5 4460 for desktop or Intel Core i5 4200H for laptops or equivalent or Higher - (b) One free USB 3.0 port compatible with the Kinect Xbox One (Intel or Reneasas) or USB 2.0 for Orbbec Astra. (or equivalent or higher) (c) Graphics card: Virtualware recommends the Nvidia GeForce GT 740 for Desktops or Nvidia GeForce GT 840M for laptops. (or Equivalent or Higher) (d) 4 GB of RAM or higher (e) Windows 8 or Higher 	

Virtual Reality Platform has to have minimum 3 therapy modules

1. Range of Motion(ROM) Assessments

- Based on standard therapy ROM assessments.
- Shall includes 3D environment with on screen 3D avatar (or equivalent) to provide feedback on quality of movements. Includes onscreen wrong movement and incorrect back posture messages
- Shall include the following assessment guided by a virtual assistant for standing and seated positions: Shoulder Abduction, shoulder Flexion, Shoulder Extension, Functional Reach, Shoulder Internal Rotation, Shoulder External Rotation, Elbow Flexion , Hip Abduction
- May able to measure Pain point and Maximum ROM data

2. Isolated ROM exercises

- Shall include the following ROM exercises guided by a Virtual Assistant for standing and seated positions: Shoulder Abduction, Shoulder Flexion, Shoulder Extension, Functional Reach, Shoulder Internal Rotation, Shoulder External Rotation, Elbow Flexion, Hip Abductor strengthening, Learning Forward, Sit to Stand, Knee Bends, Transferring Weight Laterally, Leg Raises.
- Shall include maximum ad average ROM results and quality of movement
- Shall include 3D environment with on screen 3D avatar (or equivalent) to provide feedback of movements. Includes onscreen wrong movement and incorrect back posture messages.

3. Exergames

- Shall include a suite of 16 customisable exergames in various 3D environments that are used to train both upper and lower extremities to increase mobility, range of motion, balance, coordination, and strength, as well as attentive and cognitive skills.-
- Exergames shall include differentiation between both side of the body, using different colour to represent each side (hands, feet).
- Exergames shall permit therapist to choose maximum length of time for each exergames, total number of targets, location, height and distance of each target(depending on exergame), as well as level of difficulty(depending on exergame)
- Exergames shall provide biofeedback on their posture and rehabilitation movements 100% Compliance
- Exergames should include functional activities including, but not limited to shoulder abduction, flexion and extension, functional reach, lateral movements/ side stepping, balance training, fall prevention training, Bimanual exercise, hip abduction and upper limb circumduction -100% Compliance

Includes Therapy Management Module with the following functions

- Set up of patient accounts with user specific identification details, patient height, weight (metric and imperial), etc. -100% Compliance
- Section for personal notes of therapist on individual's performance, difficulties, etc. -100% Compliance
- Creation of personalized activity based on user initial assessment results -100% Compliance
- Intuitive graphics customization panel for creating session for assessments, exercises and exergames 100% Compliance
- Monitoring of patient performance over time of assessments, exercises and exergames modules with graphics results interface measured for each individual session and activity -100% Compliance
- Reporting feature through exporting of patient results into .xls format -100% Compliance
- Create and administer specific Therapy Units comprised of selected

<p>patients and / or therapists.- 100% Compliance</p> <ul style="list-style-type: none"> • Calendar function to pre-program therapy sessions - <p><u>Other:</u></p> <ol style="list-style-type: none"> 1. Should include turnkey activities for converting 15*15 fts room into Virtual rehab unit (including Air-conditioning, fabrications, Bean bags, wobble board art work in the room).-100% Compliance 2. The company has to have minimum experience of 3 years in the field of providing such solutions -100% Compliance 3. Must have a service partner/centre within the stage. 100% Compliance 4. Free updating of games for minimum of 5-year warranty. -100% Compliance 5. 3-day User training need to provide for at least 50 persons. -100% Compliance 6. The Down time period of the equipment may be included in the extended warranty-e. <p><u>2. Supply of Wooble Board</u> – Wooden with anti Slip Mat, Bean Bag – Chair Position type for Patient, fabrication –Sitting area/working area for therapist</p> <p>Things in customer Scope or required at site from customer: Electrical Source -2.5mm or 4mm will be required in room . We can extend the cable in room within our scope , but initial drop is required from customer end. Dedicated room/Area for setting up of lab</p>
